## COMING UP AND IMPORTANT REMINDERS

### The Yard Sale is Tomorrow

We need **lots** of help first thing in the morning. Please show up between 6 and 6:30 to help move everything onto the basketball court. We also need people starting at 1:00 to help pack up. Unsold donations will be donated to Big Brothers / Big Sisters.

If you have time in between, we need plenty of people to hang out, keep things straightened up, answer questions, and watch the gate.

If you still have donations, you can bring them with you Saturday morning. We can especially use more large items like furniture.

### Lisa's Boogie Woogie Blow-out

We have tickets at the front desk for Lisa Otey's Fourth Annual Boogie-Woogie Blowout, which will be November 15 at the Temple of Music and Art. Lisa will be performing with Arthur Migliazza, Doña Oxford, and Carl Sonny Leyland.

Lisa has donated a block of tickets to Kino. We are selling them for \$20 each, all of which benefits Kino. Regular tickets at the door cost \$30, so Lisa is generously providing a great deal both for the school and for all of us who are looking forward to attending.

It will be a fantastic concert!

Mrs. Cecilia Webb came two weeks ago and helped us make some alfeniques for the Day of the Dead. It is Mexican candy. We used a lot of powdered sugar and fresh lemon juice. Mil Gracias Cecilia!

### Project Night Cancelled

If you are scrupulous about checking the calendar we sent home in August, you may be aware that we had scheduled a project night for next week, but you are definitely in the minority. We have had so many events up at school recently -- the Parent Roundtable discussion, the Fall Festival at the Animal Center, and now the Yard Sale -- we felt everyone would enjoy having a quiet evening at home instead.

### Every Day is Project Day

But please remember that any day can be project day for you if you'd like. Parents are welcome to visit the school to see what's going on. (You can even be a playground monitor while you're here!) Whenever teachers have time, they are happy to answer questions, and you are always welcome to schedule a conference with your child's homeroom teacher or with Mary Jane when you have questions or concerns.

### No School Monday

Don't forget that there's is no school on Monday.

### Join Us For Park Cleaning

**Everyone** is welcome to join us at 3:30 next Wednesday, November 12, at Children's Memorial Park. Bring your family and friends! Anna will have trash bags and gloves.

## Kino Hosts Extraterrestrials

Through a temporal anomaly, the Starship Enterprise mysteriously appeared in the Blue Room sometime before Halloween. On Halloween itself, limited numbers of students and teachers were able to actually enter the main bridge and observe the crew in action.

As it happened, the anomaly coincided with a confrontation with the Q'luthmuth Empire, which did not end well for them.

The whole incident was reported on the front cover of the Arizona Daily Star. If you didn't see the article on Halloween, you can see it at <http://www.kinoschool.org/Thomas.html>

Captain McNiece consults with Emperor O'Dell of the Hiirenhm Empire about the developing crisis

Actually, the whole production was the creation of Thomas McNiece, who designed the replica to scale and built it at home, so it could be assembled in relative secrecy in the week before Halloween. (Thank you Lisa for giving up your room for that week!)

Thomas also made a videotape of everything the crew was to see on the ship's main viewer. He used model spaceships, and computer graphics, and friends for the cast, including Kino alumni Thomas O'Dell, Andrew Davies, and Nick Thorpe.

On Halloween, audiences had the experience of being on the main bridge themselves, in the midst of an unfolding drama involving the live action crew and the action on the ship's main viewer.

The Star photographer was so intrigued by the whole thing that he stayed at Kino for about three hours the day before Halloween, photographing Thomas and his friends as they set up and rehearsed. Then on Halloween, after the article had been printed, he came by just to see the complete performance.

Though the construction was too big to keep up past Halloween, Thomas is now working on editing a movie version of their performance and is thinking about constructing a small scale model.

# Patagonia Trip!

Middle level kids packed a lot into an overnight camping trip at Patagonia Lake: fishing lessons, rowboating, and stomping on bean pods at the seed farm
